

MOVEMENT AND LOGISTICS

FLEXY AGV

Laser Guided Vehicle designed to carry out in complete safety a range of “operations” both inside and outside of a factory. It is an advanced, flexible solution for taking and moving pallets in line with a programmed storage operation.

FLEXY AGV

FLEXY AGV

- Forks payload: 3000Kg
- Variable deposit height: up to 4mt
- Max. speed.: 1,5 mt/second
- Type of load: balanced / centred
- Positioning precision: ± 5 mm
- Power supply: acid lead / pure lead / gel lead 48V battery
